

## Add an email account to your apple device

If you use an email provider like iCloud, Google, or Yahoo, Mail can automatically set up your email account with just your email address and password.

Go to Settings > Mail, then tap Accounts.

Tap Add Account, then select your email provider.

Enter your email address and password.

Tap Next and wait for Mail to verify your account.

Choose information from your email account, like Contacts or Calendars.

Tap Save.

If you don't see your email provider, tap Other to add your account manually.

### How to set up your email account manually

If you need to set up your email account manually, make sure that you know the email settings for your account. If you don't know them, you can look them up or contact your email provider. Then follow these steps:

Go to Settings > Mail, then tap Accounts.

Tap Add Account, tap Other, then tap Add Mail Account.

Enter your name, email address, password, and a description for your account.

Tap Next. Mail will try to find the email settings and finish your account setup.

If Mail finds your email settings, tap Done to complete your account setup.

Is your email account set up? Learn more about using the Mail app on your iPhone, iPad, or iPod touch.

Enter account settings manually

If Mail can't find your email settings, then you need to enter them manually. Tap Next, then follow these steps:

Choose IMAP or POP for your new account.

If your email settings are correct, tap Save to finish. If the email settings are incorrect, you'll be asked to edit them.

If you still can't set up your email account or save your email settings, contact your email provider.
